Wiring diagram for a DC power supply system. The diagram shows a three-phase AC input (L1, L2, L3, PE) connected to a KSL BUSBAR SYSTEM. A current collector cable (W1) connects the busbar to a transformer (T012) with a 380V primary and 24V secondary. The secondary is connected to a fuse (F013) and then to a DC output terminal (X1.20). A stop button (K014) is connected to the DC output. The DC output is connected to a load (H018) and a warning light (H019). The diagram also shows a ground connection (PE) and a warning light warning signal (L4).

Description		Type		Classification no.		Order no.		Group
