EFFICIENCY

The image shows a software splash screen for 'MP Efficiency'. On the left, a vertical stack of seven 3D arrow-shaped blocks, labeled A through G from top to bottom, are colored in a gradient from green to red. To the right of these blocks, the text 'MP Efficiency' is displayed in a large, bold font, with 'Lift efficiency tool' underneath it. Below the text are two circular icons: a green arrow pointing left labeled 'start' and a red arrow pointing right labeled 'exit'. In the bottom right corner of the splash screen, it says 'version 1.1 12.2012'. The background of the splash screen is light blue and features a faint image of a computer monitor displaying a software interface.

EFFICIENCY

Calculates energy consumptions and provides a VDI report according to the use category
